

LISTING OF THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claim 1 (canceled)**Claim 2 (previously presented)**

A double-sided adhesive tape comprising:
a substrate having first and second opposing sides; and
on each side, a pattern comprising adhesive and non-adhesive sections, wherein the pattern is repeated more than two times with a predetermined spacing therebetween; and
wherein an adhesive section on said first side is in contact with a non-adhesive section on said second side.

Claims 3-6 (canceled)**Claim 7 (currently amended)**

In combination, the tape according to Claim 1, a single-sided adhesive tape and a dispenser containing said tape, said tape comprising:
a substrate having first and second opposing sides; and
a pattern on said first side of said substrate, said pattern comprising adhesive and non-adhesive sections, wherein the pattern is repeated more than two times across said substrate with a predetermined spacing therebetween;
wherein an adhesive section on said first side is in contact with said second side further comprising a dispenser containing said tape,
said dispenser having an arrangement on an inside cover and at a tape outlet of said dispenser, said arrangement being disposed for contacting said pattern on said first side of said tape substrate, while permitting the adhesive tape to be moved within and discharged from said dispenser without substantially adhering to said dispenser.

Claim 8 (previously presented)

The combination according to claim 7, wherein said arrangement is disposed for contacting at least one non-adhesive section on said first side, while remaining spaced away from said adhesive sections.

Claim 9 (previously presented)

The combination according to claim 8, wherein said adhesive sections are narrower than said non-adhesive sections.

Claims 10-11 (canceled)**Claim 12 (currently amended)**

The tape according to Claim 2, wherein the adhesive sections of the adhesive tape are narrower than the non-adhesive sections: wherein the adhesive sections on the first side of the adhesive tape are narrower than the non-adhesive sections on said second side: such that said adhesive sections on said first side contact exclusively non-adhesive sections on said second side.

Claim 13 (previously presented)

The tape according to Claim 2, wherein the adhesive sections and non-adhesive sections are formed in a stripe, checkerboard, wave or dot pattern.

Claim 14 (previously presented)

The tape according to Claim 13, wherein said substrate comprises a material selected from the group consisting of paper, cloth, synthetic plastics, gold foil, silver foil, and clear, opaque and transparent sheets.

Claim 15 (previously presented)

The tape according to Claim 2, wherein an adhesive section on said second side is in contact with a non-adhesive section on said first side.

Claim 16 (currently amended)

The tape according to Claim 15, ~~wherein the adhesive sections of the adhesive tape are narrower than the non-adhesive sections; wherein the adhesive sections on the second side of the adhesive tape are narrower than the non-adhesive sections on said first side; such that said adhesive sections on said second side contact exclusively non-adhesive sections on said first side.~~

Claim 17 (previously presented)

In combination, the tape according to Claim 2, further comprising a dispenser containing said tape, said dispenser having an arrangement on an inside cover and at a tape outlet of said dispenser, said arrangement being disposed for contacting said patterns on said first and second sides of said tape substrate, while permitting the adhesive tape to be moved within and discharged from said dispenser without substantially adhering to said dispenser.

Claim 18 (previously presented)

The combination according to Claim 17, wherein said arrangement is disposed for contacting at least one non-adhesive section on each said side, while remaining spaced away from said adhesive sections.

Claim 19 (currently amended)

The combination according to Claim 18, ~~wherein said adhesive sections are narrower than said non-adhesive sections; wherein the adhesive sections on the first side of the adhesive tape are narrower than the non-adhesive sections on said second side; such that said adhesive sections on said first side contact exclusively non-adhesive sections on said second side.~~

Claim 20 (previously presented)

A note pad comprising at least first and second double-sided adhesive tapes, each said tape comprising:

a substrate having first and second opposing sides; and

on each side, a pattern comprising adhesive and non-adhesive sections, wherein the pattern is repeated more than two times across said substrate with a predetermined spacing therebetween, and

wherein an adhesive section on said first side of said first tape substrate is in contact with a non-adhesive section on said second side of said second tape substrate.

Claim 21 (currently amended)

The tape according to Claim 20, ~~wherein the adhesive sections of the adhesive tape are narrower than the non-adhesive sections; wherein the adhesive sections on the first side of the adhesive tape are narrower than the non-adhesive sections on said second side; such that said adhesive sections on said first side contact exclusively non-adhesive sections on said second side.~~

Claim 22 (previously presented)

The tape according to Claim 20, wherein an adhesive section on said second side is in contact with a non-adhesive section on said first side.

Claim 23 (previously presented)

The tape according to Claim 22, wherein the adhesive sections of the adhesive tape are narrower than the non-adhesive sections.

Claim 24 (currently amended)

A double-sided adhesive tape comprising: ~~according to claim 2, wherein said substrate is a film having said first and second two opposing sides, and~~

~~on each side, a pattern comprising adhesive and non-adhesive sections, wherein the pattern is repeated more than two times with a predetermined spacing therebetween.~~

Claim 25 (currently amended)

A tape according to Claim 24, ~~wherein the adhesive sections of the adhesive tape are narrower than the non-adhesive sections; wherein the adhesive sections on the first side of the~~

film are narrower than the non-adhesive sections on said second side: such that said adhesive sections on said first side contact exclusively non-adhesive sections on said second side.

Claim 26 (previously presented)

A tape according to Claim 25, wherein the adhesive sections and non-adhesive sections feature a vertical stripe, wave or dot pattern which repeats more than two times on a side of said film.

Claim 27 (previously presented)

A tape according to claim 26, wherein said film is substantially rectangular.

Claim 28 (previously presented)

A tape according to claim 26, wherein said film comprises a material selected from the group consisting of paper, cloth, synthetic, gold plate, silver plate or clear, opaque and translucent sheets.

Claim 29 (previously presented)

A tape according to claim 24, claim 25, claim 26 or claim 28, wherein said film comprises one sheet of a multi-sheet, substantially rectangular adhesive note pad.
